| Final Result               | Shortening of extremities due to fracture, lower extremity                                                                           |
| Total Days (non-effective) | 195                                                                                                                                  |
| Hospital Days              | 240                                                                                                                                  |
| Overseas Days              | 132                                                                                                                                  |
| Type of Discharge          | Discharged or Retired for Disability, Line of Duty, Yes                                                                              |
| Field of Cause of Disposit | Final Result field                                                                                                                   |
| Unit Number                | -                                                                                                                                    |
| Month of Dispositio        | July                                                                                                                                 |
| Year of Dispositio         | 1945                                                                                                                                 |

Source: This information was obtained from the Hospital Admission Card data file (1944-1945) created by the Office of the Surgeon General Department of the Army. In 1970 the National Research Council first compiled this for statistical purposes using the EMTs (Emergency Medical Tags) and other Office of the Surgeon General Office Records during WWII.
