The upper photo is the Blowille Cometery taken during the first few days. The lower photo is taken June 7 1944 0850 hours by photographers in aircraft 42-100462 piloted by 2nd L1. Robert Ingram of the 91st TCS, serail 3 chalk 34. X represents where the Legg Cemetery was started in the upper photo. Y is the spot the photo was taken from, either from the wing of the Horssor a raje pas the view is electated. If you notice the rows of graves in the photo, there is space in between the rows. Legg is the man in the foreground actually doing work, the rest of the soldiers in the photo have their hands in their poekets.

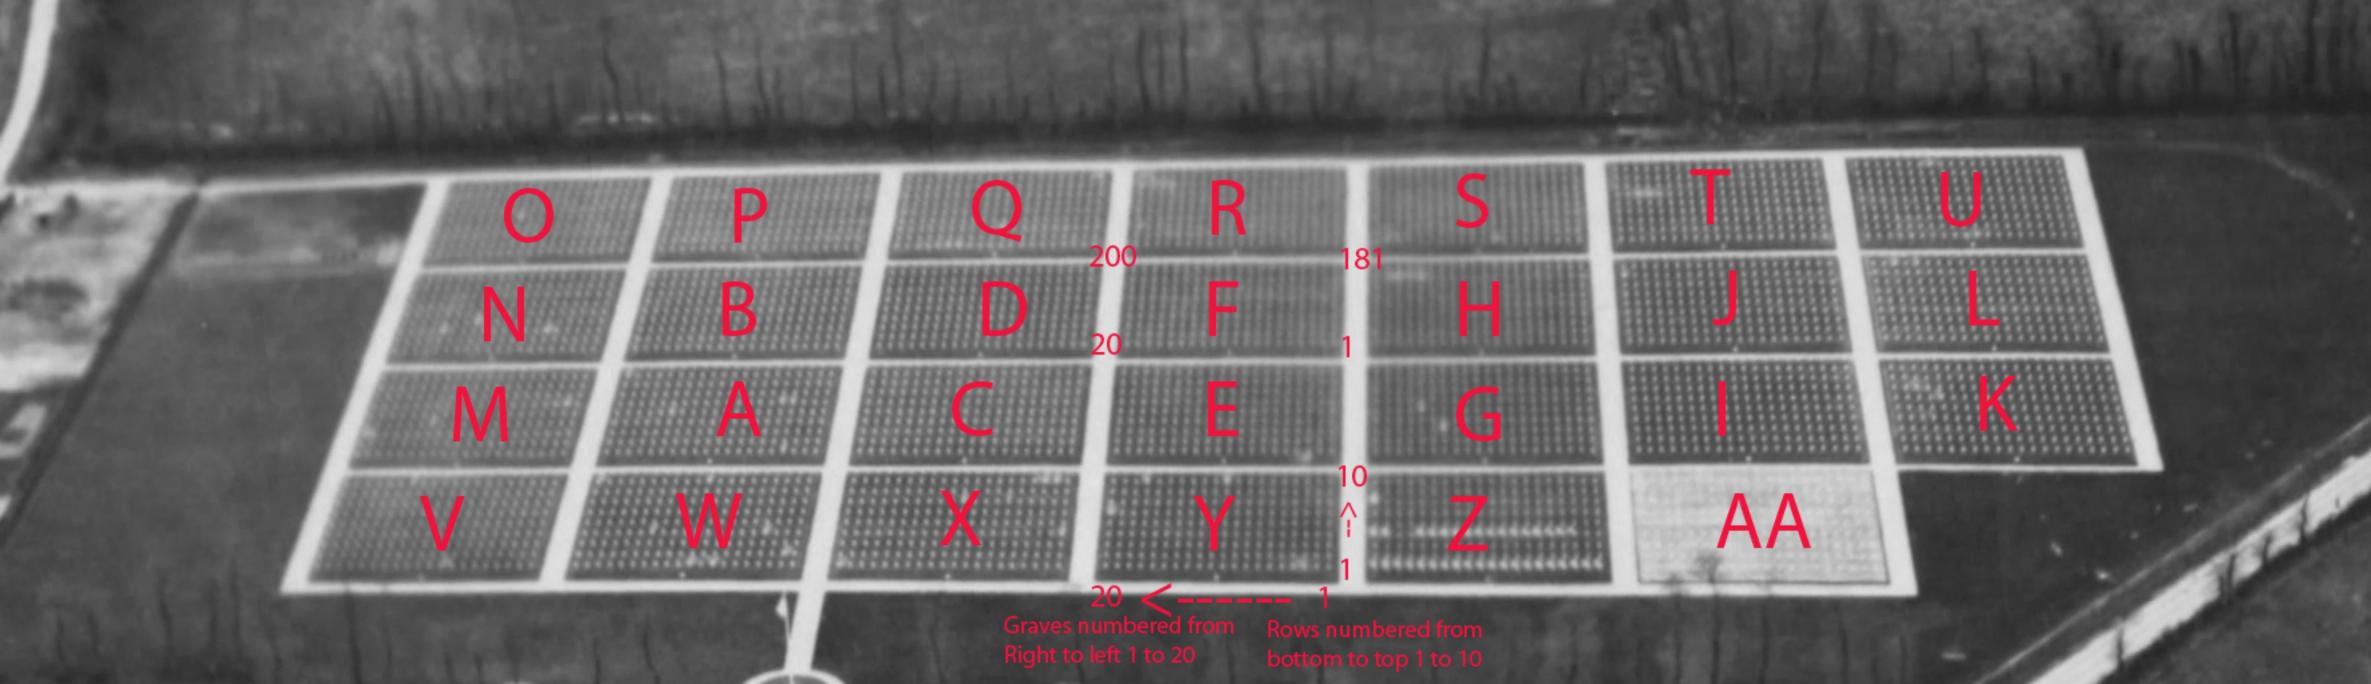

In the upper photo if you look at the corner where the two tents are pitched, you'll see trees on both corners of the angle. The only spot in the Blosville field where the cemetery was started where this occurs is where the X is located. The upper photo is from the \$2a0 AB Museum at Bragg. Dave Berry provided the lower photo.

The view in the lower photo is from the SW looking NE. The highway to St. Mere Eglise is in the middle of the photo. The upper photo was taken from the SE looking NW. Judging by the shadows it appears to be mid-day.
